"Terrific course. Lots of great info useful to all levels of researchers... All the lecturers were well-prepared, engaging and stimulating... I loved having the slides and handouts in advance." (Student Evaluations)

Classes are taught by experts from the JGSGB and cover:

- Basic research strategies & skills
- Major online resources & software
- Jewish migration history & changing European borders
- Jewish names & traditions
- Finding immigrant ancestors in U.S., European, & Israeli records
- Identifying Holocaust victims & survivors
- Organizing & sharing your research

Lectures are accompanied by individual help sessions and hands-on workshops on using online resources and genealogy software programs. Students will have free access to Ancestry and MyHeritage for the duration of the course and will be encouraged to bring laptops or tablets to class..

The course website provides audio recordings of lectures, PowerPoint slides, and class handouts for those who miss a class and as a resource for all students.
